Question 1: Why choose this course?
Answer 1:
If you are in a management role or aspiring to be in a management role in the healthcare industry or is presently in any functional role in other industry and looking to switch to the healthcare industry, you should take up this programme.

This programme has a multi-professional approach which will enable students to develop the knowledge and skills required to continue at a more advanced level and enhance their career development.

The MSc Healthcare Management programme is designed to prepare students to work effectively within the complex and rapidly evolving environments of health and social care.

Question 2: What knowledge and skills will I get from the course?
Answer 2:
The MSc Healthcare Management is distinctive in that it offers modules from the Faculty of Health, Life & Social Sciences and the Business School in Edinburgh Napier University. It thus combines clinical knowledge with business knowledge, giving you the skills required for business management of a healthcare setting.

The programme aims to enable students to be innovative, provide leadership and prepare them as professional health care managers. Critical appraisal of culturally relevant health and social policy is used to facilitate students to achieve advanced levels of practice and influence decision making at local and strategic levels.

Question 3: What is the Career Prospects?
Answer 3:
This course can offer you a valuable head-start in your chosen career. The programme aims to enable students to be innovative, provide leadership and prepare them as professional health care managers. Critical appraisal of culturally relevant health and social policy is used to facilitate students achieve advanced levels of practice and influence decision making at local and strategic levels.

The MSc Healthcare Management is aimed at nurses, allied health professionals (pharmacists, physiotherapists etc), human resource managers, IT personnel and those in administrative/ finance/ management. As long as your aim is a career within the healthcare sector, this programme might be your best step forward.

Question 4: Is this course accredited by the Singapore Nursing Board?
Answer 4:
This course need not be a accredited by the Singapore Nursing Board as it is not a clinical nursing course but a management course. We have met with the Singapore Nursing Board and given the green light to offer this course without need for accreditation.

Question 5: Where will be the campus through the whole course? Is it at a convenient location?
Answer 5:
Yes. We are located at 250 Sims Avenue, SPCS Building, #03-01, Singapore 387513. We are 2 minute walk from Aljunied MRT Station on the East-West line. There are 3 bus stops within 100m from us. Bus services that ply the route include No. 2, 13, 21, 26, 40, 51, 62, 63, 67, 80, 100, 125, 158 and 853C. There is also a public car park directly opposite our building for those who drive.

**Question 8:** How is the course delivered? What is the course schedule like?

**Answer 8:**
This course is taught in a blended delivery mode of face to face intensive lecturer sessions with online component. It is one of the innovators in the use of an interactive virtual classroom delivery to provide busy professionals the opportunity to attend a virtual class when they cannot attend the actual class.

There will be 2 full day intensive lectures on each module enrolled, held over the weekends as it would be conducted by overseas lecturer from Edinburgh Napier University. Thereafter, each student is expected to spend a total of two hundred hours on each module comprising virtual class, self-study, research and project writing.

**Question 9:** Will the MSc Healthcare Management parchment be awarded from Edinburgh Napier University?

**Answer 9:** Yes, the MSc Healthcare Management is awarded only by Edinburgh Napier University.
