WSQ CERTIFICATE IN HEALTHCARE

INTRODUCTION

Employment in healthcare occupations is projected to grow much faster than the average for all occupations. The Healthcare industry is projected to add more jobs than any of the other industries. This projected growth is mainly due to an aging population, leading to greater demand for healthcare services.

Singapore's healthcare sector is supported by a workforce of more than 100,000 people across both public and private sectors. About 63% of long-term job openings in healthcare are support roles such as healthcare assistants, therapy assistants and patient service associates. (summarised from ST, 10 Dec 2020)

As such, one can see that you will never be retrenched in the healthcare industry and in fact, there are abundant career growth opportunities in healthcare. This WSQ Certificate in Healthcare will be your start to a stable and fulfilling career in the healthcare industry in the intermediate and long term care sector, in hospitals, in homecare, etc. If you have already started working in healthcare, this course will enhance your knowledge and skill to progress further.

This WSQ Certificate in Healthcare comprises 5 modules which can be completed in 2 months of full-time studies or 5 months of part-time studies. As the need for Therapy Assistants/Healthcare Assistants are so high, we could in fact arrange for your job interviews before or immediately upon your course commencement for you to be offered a job before your course completion.

ABOUT CSM ACADEMY

CSM Academy was established since 2005 as a Private Education Institute to deliver Service Management programmes with a major focus on healthcare services education. It delivers multi-level courses ranging from Certification and Diplomas to Bachelor's and Master's Degrees. Other than healthcare, CSM Academy also provides educational courses across a wide range of other disciplines including biomedical research, digital media, and hospitality & tourism.

CSM Academy emphasises skills competency, applied workplace knowledge and service excellence, developing several of their own intellectual property programmes in Aged Care, Healthcare and Biomedical Science, all designed to help students make a positive impact in the lives of someone else.

CSM Academy is equipped with an elder care home to facilitate holistic curriculum for our healthcare students.

CSM believes Life Skills is essential to meet the challenges of everyday life. To cope with the increasing pace and change of modern life, we offer healthcare courses which provides the necessary skills education not just workplace but home life.

COURSE DEVELOPER & AWARDED BODY

CSM Academy International, Singapore

CAREER OPPORTUNITY

Upon completion of this course, you can work as therapy aides in various healthcare settings, for example, physiotherapists, occupational therapist clinics in private settings and government hospitals; rehab centres in nursing homes and physically disabled homes.

COURSE MODULES & SYNOPSIS

INTERVENTION IMPLEMENTATION IN THERAPY SUPPORT

Intervention Implementation in Therapy Support In this module, you will learn to apply effective communication techniques to develop rapport with the client, observe client reactions for moderation while providing assistance to the therapists during interventions and how to provide aid with assistive technologies during interventions.

CLIENT ASSESSMENT IN THERAPY SUPPORT

At the end of this module, you will learn to prepare materials and equipment for assessments or therapy/treatment session for clients, assist in the therapy/treatment session under the direction of a physiotherapist as well as perform and complete administrative duties.

INVENTORY CONTROL AND EQUIPMENT MAINTENANCE IN REHABILITATION CARE

At the end of this module, you will know how to clean and store therapy equipments, materials and appliances, how to maintain the usability of therapy equipments, materials and appliances and how to manage inventory control of materials.

INFECTION CONTROL

At the end of this module, you will be able to monitor and maintain safety of the environment, prepare equipment, personal protective equipment and resources. You will learn how to practice appropriate personal hygiene procedures, anticipate and respond to client needs according to client's background.

FIRST AID

At the end of this module, you will be able to follow emergency action principles, demonstrate first-aid for airway emergencies, first-aid for breathing emergencies, CPE skills, first-aid for heart conditions and stroke, techniques for controlling bleeding, first-aid for bone, muscle or joint injuries, first-aid for soft tissue injuries, first-aid for medical conditions, first-aid for head and spine injuries and first-aid for poisoning.

WHO WILL BENEFIT FROM THIS COURSE

- If you are thinking of a career change to the healthcare industry
- If you want to do freelance homecare work to have a flexible work schedule
- If you have elderly at home for whom you want to assist in their daily care
- If you want to do some meaningful volunteer work
- If you want to pick up a useful skill to future proof your career / job security.

This course will provide you with the relevant skills to become a Therapy Assistant / Healthcare Assistant, a position that is in high demand in the evergreen healthcare industry.

It is also excellent for your personal growth and knowledge as the skills acquired can be utilised at home for family, for friends and for the community at large.
